Watch the Drops! Water Conservation Status Checker

Summer puts the greatest demand on our water supplies, and this year a super El Niño could make things more challenging. Water restrictions may be needed to help manage demand. Our 'Watch the Drops' traffic light system shows the current level of demand and when extra care is needed. By following the restrictions and using water wisely, we can help ensure there's enough for everyone throughout summer.

Use Wisely | **Reduce Use** | **Restrictions Apply**

Scan the QR code or visit our website to check the current status for your town.
www.codc.govt.nz/services/water-services/water-conservation

Everyday habits to lower your water use...

Shower smarter
Every minute you cut saves ~7 litres. One minute less daily saves ~2,500 litres a year.

Wash full loads
Wait until the dishwasher or washing machine is full before running it.

Turn off the tap
A running tap wastes up to 10 litres per minute. Turn it off while brushing or shaving.

Garden wisely
Water in the cool early morning or evening, or use mulch to reduce evaporation.

Vote by 7 November at your local voting place
