

Submitter S - Ngaire Barton

I have lived in the Maniototo for 27 yrs, coming from the West coast Haast working as a casual musterer, milking cows calf rearing and raising three children.

The Maniototo has always drawn me to it's beauty the breath taking landscapes from ~~the~~ any of the mountain's around the basin you can see the entire area it is very distressing to hear of this eye sore Bmanstossity

it will bring it scares
me on what it will become
for our children & their
children as it can never
be put back to what it
was before and the
glass & parts can only be
used as land fill now
is this clean N2
people come to N2 for it
beauty why are we
destroying it?

How can our Council
be on board with this?
as they can tell us
what Shop color

3 height our buildings
can be but this
can be built in
our back yard?

It's distressing
All for the benefit
of people that don't
even live here!

The noise pollution
the glare you will
see for ever no many
trees you plant
they take 20-30 yrs
to grow here, I know
this as we have planted
plenty please do not
Allow this in our
beautiful community
