Details of submission

The specific parts of the application that my submission relates to are:	Dust Wind Working hours
--	-------------------------------

The submission - include:

- whether you support or oppose the specific parts of the application or wish to have them amended; and
- the reasons for your views.

We the owners of 54 River Ridge Rd live across the river from the proposed mine. I am fully retired and my wife works two days per week so we are in residence the vast majority of the time.

1. We are very concerned about the potential for the dust to be blown over our section and the sections of our neighbours. The wind is a huge factor in our valley and and the documents filed do not explain how the effect from the dust from the mine will not be harmful to our home.

2. We are concerned about the adverse effect on the environment due to the noise. Noise experiments have been carried out but residents have not received any detailed reports on those noise levels or mitigation processes.

3. We are also concerned about a 10 hour working day which is a very long time for residents to have to live with industrial noise and pollution. SWe also do not know when the working day will start and stop.

Please upload any documents / photos that are relevant

I seek the following decision from the consent authority.

Give precise details, including the general nature of any conditions sought

To adjourn the hearing and decision until sufficient time has expired for the council and residents to analyze the information to be given, including engaging their own experts, and make further submissions if required.

Select below - Pursuant to [section 100A](#) of the Act, that you delegate your functions, powers, and duties to hear and decide the application to 1 or more hearings commissioners who are not members of the local authority. "See note 4 (second tab) as you may incur costs relating to this request."
