Video on Monday 19th October 26 from 63 River Ridge road, adding a Hobby Rock Tumbler

Rock Tumbler is Rated by manufacturer at 55db (used for polishing rocks)

We can no longer hear river and barely any bird's

Video on Monday 19th October 26 from 63 River Ridge road, moving Rock Tumbler 20 ft away

The sound of the Rock Tumbler still overwhelms all, imagine what this would be like 45 hours a week

Does this look like a location for an Open Cast mine
