

Anna Harrison

This is my fourth term as an elected member of the Cromwell Community. This term we are navigating changes to representation and the change to a district wide funding model and delegations. I am excited about the big projects on our plate over the next three years that include the establishment of the investment strategy for funds from Cromwell endowment land, completion of The Cromwell Memorial Hall Build, the Bannockburn Road Industrial Development, the Gair Estate residential development and pushing forward the conversations about the Cromwell Town Centre Ensuring that the voice of the Cromwell Community is heard and included in decision making for projects in our ward will be my driving focus.
