Operational Rating Policies

Māori Freehold Land

Central Otago District Council has no Māori freehold land and therefore has no policy relating to rates relief thereon.

Postponement of Rates

The objective of the Council's policy on postponement of rates is to assist ratepayers experiencing extreme financial circumstances which affect their ability to pay rates.

Only rating units used solely for residential purposes (as defined by the Council) will be eligible for consideration for rates postponement for extreme financial circumstances.

Only the ratepayer, or his/her authorised agent, may make application for rates postponement. Such application must be in writing.

The ratepayer must have owned the rating unit for at least five years.

When considering whether extreme financial circumstances exist, all of the ratepayer's circumstances will be relevant, including:

- Age
- Physical and/or mental disability
- Injury or illness
- Family circumstances
- Eligibility for DIA Rate Rebate

Additionally, Council must be satisfied that the ratepayer is unlikely to have sufficient funds left over, after the payment of rates, for:

- Normal health care
- Proper provision for maintenance of his/her home and chattels at an adequate standard
- Normal day to day living expenses

Any postponed rates will be postponed until the earlier of:

- The death of the ratepayer; or
- The sale of the rating unit

Postponed rates will be registered as a statutory land charge on the rating unit title. This means that the Council will have first call on the proceeds of any revenue from the sale or lease of the rating unit.

Postponement of rates will apply from the beginning of the rating year in which the application is made.

Postponed rates will incur a postponement fee, equivalent to interest calculated on the total amount postponed at 30 June each year, plus an administrative charge. The interest will be calculated at Council's internal investment rate, as used for internal loans.

Remission of Rates

The general objectives of the Council's policy on remission of rates are to:

- Mitigate the effects of anomalies and inequities in its rating system, i.e. fairness and equity, i.e. economic well-being
- Assist new and existing businesses to increase their contribution to district employment, i.e. social and economic well-being
- Assist conservation of natural, historic and cultural resources, i.e. environmental and cultural well-being specific objectives are set out in each element of the policy

Remission of Penalties

The objective is to enable Council to act fairly and reasonably in its consideration of rates which have not been received by the due date due to circumstances outside a ratepayer's control.

A good payment history will be taken into account when considering any remission of penalty. Remission of penalty will be considered in the case of death, illness or accident of a close family member (as defined by Council) as at the due date.

Remission of penalty will be considered when a payment plan for arrears is agreed and operational.

Remission of penalty will be considered where it facilitates the future payment of rates by direct debit within a specified timeframe.

Remission of penalty will be considered where remission will facilitate the collection of overdue rates and results in full payment of arrears and saving on debt recovery costs.

Remission of penalty will be considered if the ratepayer is able to provide evidence that payment has gone astray in the post or by failure to act by a bank in the case of direct debits or credits.

Remission of penalty will be considered where the penalty has been incurred during the processing of settlements following changes in ownership of rating units.

Application for remission of penalty must be in writing to the Rates Officer, or in the case of volumetric water charges, the Water Billing Officer.

Penalties will not be applied to rates accounts with an outstanding balance where an agreed payment arrangement is in place.

Remission of Uniform Annual Charges and Fixed Charge Targeted Rates on Rural Rating Units

The objective is to prevent a ratepayer paying several uniform annual charges and fixed charge targeted rates on rural land where land is contiguous, farmed as a single entity but is owned by more than one family member, including a family trust (but excluding a limited liability company).

Application for remission of uniform annual charges must be in writing to the Council. It will not be necessary to reapply each year unless circumstances change.

Remission will include any targeted rate set on the basis of a fixed dollar charge per rating unit, as well as any uniform annual charges, with the exception of water and wastewater.

The ratepayer will remain liable for at least one set of each charge.

Remission of uniform annual charges and fixed charge targeted rates, where granted, will take effect from the commencement of the next rating year.

Remissions will not be granted where the Council views the contiguous properties as held for investment purposes; for example, where a new deposited plan has been approved. [Refer also to the Council's policy on remission for development land.]

Where a remission of uniform annual charges and fixed charge targeted rates has been granted to a rating unit, and that remission ceases to be applicable through change in ownership or usage, the rating unit will be charged a proportion of the targeted rates and uniform annual charges applicable for the remainder of the year, commencing from the beginning of the next rating instalment period.

Remission for Extreme Financial Hardship

The objective is to assist ratepayers who experience temporary extreme financial circumstances which affect their ability to pay rates.

To enable Council to verify extreme financial circumstances exist, an application must be in writing, on the prescribed form (available at Council offices or website). This form contains a statutory declaration which must be completed in front of a Justice of the Peace, solicitor or another person authorised to take a statutory declaration. This statutory declaration is a legal document and should be treated as such. Ensure information is true and correct to the best of your knowledge and belief. You may face criminal charges if you knowingly make a false oath or affirmation.

This form must also be completed by the registered owner and occupier of the property and must relate to a residential property in the Central Otago District. This form is for residential ratepayers only. This application is not for commercial ratepayers.

This application is valid for 12 months, although a consecutive application may be considered but to a maximum of 2 years in totality.

Water, wastewater and refuse charges will be excluded and not subject to remission under the Remission of Rates for Extreme Financial Hardship policy.

If the ratepayer would not qualify for the DIA rates rebate, Council may remit some of the rates due, based on its assessment of the situation.

Eligible ratepayers will receive a 50% remission of rates for two years commencing 1 July on the year following application.

Water, wastewater and refuse charges will be excluded and not subject to remission under this policy.

Applications must be in writing, on the prescribed form (available on our website). This is to enable Council to verify that extreme financial circumstances exist.

Remission for Anomalous Rates and/or Inequitable Rates Increases

The objective is to allow Council to mitigate any unforeseen effects of:

- Changes in funding policies
- Changes arising from general revaluation of the district's rating units
- Changes in legislation
- Changes arising from unforeseen and/or unusual circumstances

Council will each year receive a report, as part of its Annual Plan process, detailing properties which, unless remissions were granted, would suffer an anomalous or inequitable rates increase in the year to which the Annual Plan relates.

Council may remit such part of the potential increase as it sees fit, subject to such remission not being so great that the rating unit pays a lesser increase than the average for the ward or district.

Ratepayers eligible for such remission will be notified in writing before the first instalment falls due. However, ratepayers not so notified may make application in writing for such remission.

Remission of Rates on Rural Land (with a Capital Value less than \$1,000).

The objective is to recognise that undeveloped rural land with a capital value below \$1,000 should only pay minimum rates.

To qualify, ratepayers must hold other land in the district on which full rates are payable.

The minimum rate may vary, but is currently deemed to be \$10.

Ratepayers eligible for such remission will be notified in writing before the first instalment falls due.

Eligible ratepayers will receive a 50% remission of rates for two years commencing 1 July on the year following application.

Water, wastewater and refuse charges will be excluded and not subject to remission under this policy.

Remission of Rates on Land Protected for Natural, Historic or Cultural Conservation Purposes

The objective is to preserve and promote natural resources and heritage by encouraging the protection of land held for natural, historical or cultural purposes.

Ratepayers who own rating units that have some feature of cultural, natural or historical heritage that is voluntarily protected may qualify for remission of rates under this policy.

Applications must be made in writing to the Rates Officer and be supported by documented evidence of the protected status of the rating unit, for example a copy of the covenant or other legal mechanism.

In considering any application for remission of rates under this part of the policy, the Council will consider the following criteria:

- The extent to which the preservation of natural, cultural or historic heritage will be promoted by granting remission on rates on the rating unit
- The degree to which features of natural, cultural or historic heritage are present on the land
- The degree to which features of natural, cultural or historic heritage inhibit the economic use of the land
- The use of the property

In granting remissions under this policy, the Council may specify certain conditions before remission will be granted.

Applicants will be required to agree in writing to these conditions and to pay any remitted rates if the conditions are violated.

Council reserves discretion in the awarding of all remissions, with the value and duration being relative to scale of the maintenance or restoration project.

Ratepayers are only eligible to apply for this remission if they voluntarily protect any features of cultural, natural or historic heritage.

Water, wastewater and refuse charges will be excluded and not subject to remission under this policy.

Land that is non-rateable under section 8 of the Local Government (Rating) Act 2002 and is liable only for rates for water supply, sewage disposal or refuse collection will not qualify for remission under this part of the policy.

Remission of Rates for Heritage Buildings

The objective is to provide for the preservation of Central Otago's heritage by encouraging the maintenance and restoration of historic buildings. Provision of a rates remission recognises that there are private costs incurred for public benefit.

Applications must be made in writing to the Rates Officer and be supported by documented evidence.

Ratepayers who have buildings with a heritage classification may apply for a rates remission providing the following conditions are met:

- Buildings date pre-1900 or are listed on the Central Otago District Plan Schedule 19.4: Register of Heritage Buildings, Places, Sites and Objects and Notable Trees
- The property must not be owned by the Council or the Crown, or their agencies
- Building owners will need to make a commitment to the ongoing maintenance of their building; or
- Provide details of the restoration project

Eligible ratepayers will receive a 50% remission of rates for two years commencing 1 July on the year following application.

Water, wastewater and refuse charges will be excluded and not subject to remission under this policy.

Remissions for Community, Sporting and Other Organisations

The objective is to facilitate the ongoing provision of non-commercial community services and non-commercial recreational opportunities.

The purpose of granting rates remission to an organisation is to:

- Recognise the public good contribution to community well-being made by such organisations
- Assist the organisation's survival
- Make membership of the organisation more accessible to the general public, particularly disadvantaged groups including children, youth, young families, aged people and economically disadvantaged people

Council supports applications for financial assistance by any organisation not conducted for private profit.

The principal object of the organisation should be to promote the development of Central Otago and provide for at least one of the following: the public, recreation, health, enjoyment, instruction, sport or any form of culture, or for the improving or developing of amenities, where the provisions of any one of these areas is to the benefit of the area.

An organisation making an application should include the following information in support of its application:

- Evidence that other areas of assistance have been investigated if available
- That there is a need for assistance
- That there has been a reasonable effort made to meet the need by the organisation itself
- The organisation's most recent financial accounts

Applications must be made in writing to the Rates Officer and be supported by documented evidence.

Each application will be considered by Council in its merits, and provision of a remission in any year does not set a precedent for similar remissions in any future year.

Remissions to any qualifying organisation shall be on a case-by-case basis of reduction in rates and charges, except that no remission will be granted on targeted rates / charges for water supply, sewage disposal or refuse collection, or areas used for bars.

Eligible ratepayers will receive a 50% remission of rates for two years commencing 1 July on the year following application.

Water, wastewater and refuse charges will be excluded and not subject to remission under this policy.

Remission for Crown or Council Land used for Private or Commercial Purposes

The objective is to ensure lessees using Crown or Council land for private or commercial use do not pay unreasonable levels of rates. Such land is subject to the remissions supporting contiguous land.

Part 1 of Schedule 1 of the Local Government (Rating) Act 2002 states that Crown land is non-rateable, but excludes land used primarily or exclusively for private or commercial purposes under a lease, licence or other agreement.

Application for remission of uniform annual charges must be in writing to the Council. It will not be necessary to reapply each year unless circumstances change.

Remission will include any targeted rate set on the basis of a fixed dollar charge per rating unit, with the exception of water and wastewater.

Applications for remission under this part of the policy must be in writing to the Rates Officer. Applications should give evidence as to why it is unreasonable for the ratepayer to be assessed for rates on the land.

Remission for Land Affected by Natural Disasters

The objective is to provide relief to ratepayers whose land or property has been seriously adversely affected by a natural disaster. A natural disaster is considered as including, but not necessarily limited to, flooding, earthquake damage, wildfire or storm.

Applications for remission under this part of the policy must be in writing to the Council. Applications should give evidence as to why the ratepayer's enjoyment of the land or property has been seriously adversely affected by the natural disaster.

This part of the policy will only be relevant if the natural disaster had a widespread effect in the district.

Remission for Development Land

The objective is to ensure that unsold development land which is in one parcel, but has separate valuation assessment numbers, does not pay more than one set of uniform annual charges and fixed charge targeted rates, excluding volumetric water charges.

Council reserves discretion to consider other requests for remission for Development Land, which vary from that outlined above.

Applications under this part of the policy must be in writing to the Rates Officer.

Any remission granted shall be for four years, effective 1 July on the year following the application.

For each development (defined as one deposited plan):

- In Years 1 and 2 the ratepayer shall pay uniform annual charges and fixed charge targeted rates on one allotment and receive 100% remission on second and subsequent allotments
- In Years 3 and 4 the ratepayer shall pay uniform annual charges and fixed charge targeted rates on one allotment and receive 50% remission on second and subsequent allotments
- Remission shall cease for any allotment if:
 - any interest in the land is passed by the developer to another party, or
 - an application for a building consent is granted, or
 - the land is developed in some other way

Remission ceases from the end of the quarter in which any of these events occur.

Eligible ratepayers will receive a 50% remission of rates for two years commencing 1 July on the year following application.

Remission for Business Development

The objective is to promote employment and economic development within the district by assisting new businesses (i.e. not in competition with existing businesses) and/or the expansion of existing businesses.

This part of the policy applies to:

- Commercial and / or industrial development that involves the construction, erection or alteration of any building, fixed plant and machinery, or other works intended to be used for industrial, commercial or administrative purposes
- Investment in capital improvements (excluding the cost of the land) must be in excess of \$1,000,000 and significant new employment opportunities created
- Residential developments are specifically excluded from consideration for remission under this part of the policy

Applications must be made in writing to the Rates Officer and must be supported by:

- A description of the development
- A plan of the development (where possible)
- An estimate of costs
- An estimate of the likely number of new jobs to be created by the development

Any rates remission granted will apply during the course of the development for a period of up to three years, with the first year being 1 July on the year following the application.

The amount of remission to be granted will be on a case-by-case basis, subject to a maximum of 50% of rates assessed. Water, wastewater and refuse charges will be excluded and not subject to remission under this policy.

In granting any remission under this part of the policy the Council may specify certain conditions before the remission will be granted. Applicants will be required to agree in writing to such conditions and to pay any remitted rates if the conditions are violated.

Remission of Water Rates Attributable to Leakage

Background

From time to time water consumers experience a loss as a result of leaks or damage to their water supply system. It is the normal practice for the consumer to be responsible for the maintenance of the reticulation from the water meter to the property, and to account for any consumption of water supplied through the meter. This is currently enforced through the Water Supply Bylaw 2008.

Council has taken the view that some consumers may experience an occasional water leak without them being aware of the problem. They have therefore decided that it would be reasonable to allow for a reduction in charges to these consumers in certain circumstances.

This policy statement addresses that decision.

Objective of the Policy

To standardise procedures to assist ratepayers who have excessive water rates due to a fault (leak) in the internal reticulation serving their rating unit.

Whilst at the same time ensuring that consumers retain responsibility for the maintenance of their private reticulation, as required by the Water Supply Bylaw 9.15.

Conditions and Criteria

The Council may remit the excess water rates where the application meets the following criteria:

- The policy will apply to applications from ratepayers who have excess water rates due to a fault(s) in the internal reticulation
- That all applicants are requested to submit their application in writing before the due date of an invoice
- That a report from a registered plumber be supplied stating that the property has experienced a water loss as a result of a leak
- That proof of the repairs to the internal reticulation be submitted for verification (i.e. plumber's repair account) within 60 days of the due date of an invoice
- That the ratepayer be charged the full charge for normal consumption
- The maximum relief that will be provided will be 50% of the difference between the normal consumption and the actual water consumption for that period any remission under this policy will be limited to one application within any two-year period for any particular rating unit
- The Group Manager – Business Support be delegated authority to consider applications for remission of excess water rates and, if appropriate, approve or decline them.

Notes:

- “Internal reticulation” refers to the underground and indoor pipe work and specifically excludes irrigation and leaking toilets, taps etc
- The “normal consumption” will be calculated at Council's discretion from the information available
- No adjustment shall be backdated beyond the current period invoiced
- This is a financial remission only based on the volumetric charge.

General

In certain cases, particularly requests for remission for:

- Business development
- Land protected for natural, historic or cultural conservation purposes
- Land affected by natural disaster
- Remission for anomalous rates increases
- Heritage buildings
- Community sporting and other organisations

The application will be referred to Council for a decision.

All applications considered by Council will be discussed in open session, or the results of its deliberations in closed session will be disclosed in open session at its next meeting.

All other applications for remissions will be decided by the Group Manager – Business Support or duly delegated officer.

Relevant legislation:

-  Local Government Act 2002
-  Local Government (Rating) Act 2002
